CORC | YOGA

# OUR STORY

The Corc Yoga story began where many of life's best journeys start, with adventure. Traveling through Portugal, Corc Yoga founder Christine Moghadam discovered the beauty of one of the country's most bountiful resources, the cork oak.

With over a third of the world's two million hectares of cork forest-grown right in Portugal, the cork oak is a deeply rooted symbol of sustainability, regeneration and cultural heritage. Inspired by its resilience and purpose, Christine partnered with a third-generation cork developer and a century-old factory to bring a modern vision to an ancient craft.

What began with the world's most sustainable yoga mat has evolved into a design-driven mission: to create meaningful products that nurture people, protect the planet, and empower local communities.

# OUR MISSION

ROOTED IN SUSTAINABILITY  
EXPANDING WITH PURPOSE

At Core Yoga, sustainability and wellness are at the heart of everything we do. What began with the world's most sustainable cork yoga mat has grown into a broader mission: to design products that nurture people, protect the planet, and uplift communities.

We collaborate with family-owned producers and artisans who responsibly harvest cork from Portugal's ancient forests ensuring this centuries-old practice continues to support biodiversity and regeneration.

Beyond wellness, our collections offer ecological solutions for hotels, spas, and design partners worldwide.

From cork to organic cotton and natural textiles, every material we source reflects our belief that design and sustainability can coexist beautifully

*We design with intention, every piece tells a story of renewal*

# WHY WE DESIGN WITH CORK

## **ABSORBS VIBRATION**

Since 50% of cork is filled with air, it essentially acts as an “air cushion”, absorbing vibrations and direct impacts. This makes it an excellent acoustic and soundproofing material for floors, walls and ceilings.

## **BENEFICIAL TO YOUR HEALTH**

Cork is naturally anti-microbial which deters mold, mildew, termites and other harmful insect infestations. Cork's antistatic surface limits the chance of dust and toxin absorption, making it a great choice for people with allergies.

## **VERSATILITY AND DIVERSITY**

Cork is a versatile raw material, with the proper technology it can be transformed into many different uses and generate several products in various sizes, styles, and colors.

## **LOW THERMAL CONDUCTIVITY**

Cork displays a high degree of stability under varying conditions. Our cork has been tested to withstand as low as negative  $-200^{\circ}\text{C}$  ( $-328^{\circ}\text{F}$ ) to as high as  $170^{\circ}\text{C}$  ( $338^{\circ}\text{F}$ ). It provides a great alternative for the interior of a cryo chamber and insulation for a dry heat sauna.

## **RESILIENT**

Heavy pressure does not break down the tiny air cells in cork. Cork has the ability to withstand 14,000 pounds per square inch. On the contrary, compressed air within the cells spring back when the pressure is removed.

# DESIGN WITH CORK

Cork's natural warmth and resilience make it an exceptional design material for hotels, spas, retreats, and curated retail environments. Our products combine modern aesthetics with traditional Portuguese craftsmanship to create pieces that are functional, tactile, and naturally sustainable.

Whether you are designing an eco-conscious suite, a serene wellness space, or a unique VIP gifting experience, cork offers endless possibilities.

# CORK COLLECTION

THOUGHTFUL DESIGN FOR  
HOSPITALITY, WELLNESS,  
AND MODERN LIVING.

# WELLNESS & RETREATS

From our signature Renew Mat, cork massage balls to our meditation cushions, each and every product is infused with elements of one of Portugal's most unique resources.

We partner with hospitality & wellness professionals worldwide who value meaningful design and intentional living to create bespoke cork products for curated wellness experiences.

# DESIGN COLLECTION

## *CURATED CORK ESSENTIALS FOR MODERN SPACES*

We collaborate with interior designers, boutique developers, and stylists to bring warm, natural textures.

For corporate teams and gifting programs, our natural cork essentials offer a refined balance of design and sustainability.

From welcome amenities to thoughtful desk accessories, each piece is created with intention to elevate everyday moments with quiet luxury.

# LIFESTYLE & TRAVEL COLLECTION

*Thoughtfully crafted cork essentials for eco-conscious clients.*

THE FEELING OF NATURAL LUXURY

# YOUR VISION, CRAFTED IN CORK

*Tailored pieces designed exclusively for hotels, spas, retreats, and visionary brands.*

We collaborate with leading hotels and design teams to create custom cork pieces that are functional, beautiful, and environmentally conscious. From bespoke amenity cards to branded yoga mats and guest-experience touchpoints, every item is crafted in Portugal using regenerative cork and artisanal techniques. Our custom designs live inside suites, spas, and villas around the world.

Each design is created to enhance the guest journey with natural textures and thoughtful design. From turndown cards to cork door hangers, we help hotels replace disposable plastics with elevated, sustainable alternatives. Designed to be gifted or purchased, our custom cork pieces bring a warm, natural luxury to corporate retreats, wellness events, and VIP experiences.

# GIVING BACK

*A commitment to well being*

---

Beyond sustainability, our purpose is to uplift lives. Our mission goes beyond products, it's about people, community, and creating lasting change.

*Wellness is not a product.  
It's our responsibility to one another.*

Supporting mental health has been at the heart of Corc Yoga since the beginning. For every product sold, we donate a percentage to our youth mental health partners in Portugal and the US. These donations are directly empowering lives and restoring hope through community and compassion.

## **Join Us in Making a Difference**

Every purchase supports mental health initiatives and the family-owned factories and artisans in Portugal who bring our cork pieces to life.
